Summary

I am a solutions-driven and detail-oriented engineering student with a strong foundation in Data Structures and Algorithms, and hands-on experience in Python, Java, SQL, HTML, CSS, JavaScript. I specialize in writing efficient, optimized code and building logical, scalable solutions to real-world problems.

I work effectively in collaborative environments, adapt quickly to new technologies, and take ownership of tasks to deliver high-quality results. I am seeking an internship or entry-level opportunity where I can apply my problem-solving expertise, contribute to impactful software projects, and continuously improve my technical skills.

Skills

Programming Languages: C, Python, Java

Web Technologies: HTML, CSS, JavaScript

Relational Database & Querying: SQL (PostgreSQL)

Core Computer Science: Data Structures and Algorithms (DSA)

Development Tools: Visual Studio Code, GitHub, pgAdmin, Postman

Coding Platforms: SmartInterviews, LeetCode, HackerRank, CodeChef

Problem-Solving Skills: Algorithmic Thinking, Debugging, Logical Reasoning, Code Optimization

Professional Skills: Team Collaboration, Communication Skills, Adaptability, Time Management, Analytical Thinking

Projects

Urban Gardening Planner

MERN Stack

- Developed a full-stack web application that enables users to create and manage personalized gardens with secure JWT authentication and multi-user support.
- Implemented automatic garden layout generation based on available area, seasonal plant recommendations, and an interactive drag-and-drop interface for plant placement with detailed plant care information.
- Integrated MongoDB for data persistence and email notifications for watering, fertilizing, and maintenance reminders, following a modular and scalable architecture.

Lost Item Recovery Hub

React.js, Node.js, Express.js, HTML, CSS

- Built a centralized Lost and Found platform for reporting and searching items, featuring intelligent match suggestions based on category, type, and reporting date.
- Implemented secure user authentication and anonymous real-time chat to enable safe communication and streamline the item recovery process.

Achievements & Certifications

- C Essentials – Cisco Networking Academy
- Python Programming – Infosys Springboard
- Java Programming – NPTEL
- Data Structures and Algorithms – Udemy
- AI-ML Virtual Internship – Google for Developers
- Skill Certifications – HackerRank (Python, Java, SQL)
- IIT Madras Spoken Tutorial – Linux, Ruby
- SQL Certification – Newton School
- Competitive Programming Practice – Hive, HackerRank, LeetCode, CodeChef

Education

B.Tech in Artificial Intelligence and Machine Learning

Gokaraju Rangaraju Institute of Engineering and Technology, Hyderabad

2024 – 2028

CGPA: 9.38 / 10

Intermediate (MPC)

TSWREIS

2022 – 2024

Marks: 976/1000
